

Make Trade Work for Working People!

FAIR TRADE FOR WORKING FAMILIES

(H.Res. 1286)

Fair Trade for Working Families (H.Res. 1286) is a new measure in Congress based on these simple truths:

- **Corporate-Driven Trade Deals Have Been a Disaster for Working People at Home and Abroad**
- **President Trump’s “Billionaires First” Trade Approach Has Failed to Create Jobs or Raise Wages**
- **We Need a New Model for Trade That Actually Works for Working People**

Fair Trade for Working Families offers a blueprint for trade that puts the interests of working people and communities ahead of greedy corporations.
